**CLOVER IMAGING GROUP BIKE DONATION HELPS RAISE FUNDS
FOR MWAi ROLLING THUNDER RIDE**

CHICAGO, IL – April 20, 2016 Clover Imaging Group (CIG) is proud to support MWA Intelligence (MWAi) in this year's Rolling Thunder Ride. MWAi participates annually in the Rolling Thunder Ride, which honors our veterans and raises donations for a charity in need. This year, MWAi's President and CEO, Michael T. Stramaglio, along with other participants from the Imaging industry, will ride in support of the Jillian Fund. To help support their goal of raising over \$150,000, CIG donated a customized Harley Davidson Fat Boy.

"The Jillian Fund has touched my heart in ways I cannot even describe, and I believe that Jillian is looking down on us and smiling," said Michael T. Stramaglio, President and CEO of MWA Intelligence, Inc. "The Jillian Fund has united an industry to support families when the unthinkable happens and provides financial funding during those incredibly dark times. It is my honor to ride for Jillian."

The bike will be raffled off on Memorial Day, and tickets are still available online at <https://www.501auctions.com/tjfbignightout/item/29697>. All ticket sales will go directly toward the Jillian Fund. The ride begins on May 16th and concludes on Sunday, May 29, 2016, in Washington D.C.

"We are honored to be able to partner with MWAi and help them honor our veterans and support such a great organization like The Jillian Fund," said Jim Cerkleski, CEO, Clover Holdings, Inc. "At Clover, we are committed to giving back to the community. This donation will help to provide financial support to families of critically ill children during their most difficult times."

###

About CIG:

Clover Imaging Group provides unparalleled support, collection opportunities, and solutions to independent dealers, OEMs, and retailers throughout the imaging channel and includes the most respected and well-known brands in the industry including: MSE, Dataproducts, Clover Environmental Solutions, OPRA, Axess Managed Print Services, Tecno Toner, Depot International and Latin Parts.

This impressive group offers the markets widest array of products and services and is supported by a vast engineering infrastructure, marketing resources, distribution capabilities, and strategic partnerships.
